Comments: Cube Cove is healing from the damage caused by past logging, roads, and associated impacts, and the Forest Service's massive "restoration" program is inappropriate for the Kootznoowoo Wilderness.

The Forest Service needs to consider a wilderness-compatible plan if it chooses active restoration, such as one that uses non-motorized hand tools rather than heavy equipment.

Reclaimed roads should not be converted to trails. If the agency does convert them, though, it must mitigate the impacts on wildlife from increased human use.
