Comments: The Cube Cove Restoration project is misguided and does not follow best restorative land management practices. The Forest Service's plan violates the letter and spirit of the Wilderness Act-through its extensive use of chainsaws, helicopters, motor vehicles, and other motorized equipment, plus tree cutting, placing woody debris in riparian areas, and other proposed actions. In order to protect these lands, the Forest Service needs to analyze a wilderness-compatible plan if it chooses active restoration. Please keep Kootznoowoo Wilderness wild and safe for future generations. We cannot use brutal and invasive land practices to "restore" lands. Thank you.
