Title:

Comments: Please do all that you can to protect mature and old growth trees. They are precious in their own right, their habitat is precious home to precious American wildlife, and trees are essential to block climate change. And they are OLD and MATURE! Leave them alone and value and protect them, please!!!!

Please do all you can with, independent from industry, scientific help and input, to best protect these mature and old growth trees and their habitat.

Thank you.
