

Data Submitted (UTC 11): 8/7/2022 10:06:50 PM

First name: Christopher

Last name: Hunt

Organization: citizen

Title: Older

Comments: Please identify and preserve so called Old Growth Forests.

These are invaluable to future citizens and scientists.

These areas may contain information in any areas of future studies in a changing climate

Once you cut them down you can't go back

Yes we all know that. Thank You for this opportunity to impute my opinion
