Comments: I am a frequent horse camper in the the National forest. I grew up camping at the white tail Campground, but unfortunately I haven't camped down there in years due to the road conditions but mostly because the atv riders have ruined a once peaceful campground. I am in favor of improving the road down to whitetail but I would like to see it be restricted to atv use so they don't tear it up like everything else they are able to ride on out there. I would also like to see more be done to keep the atv riders out of the campsite itself. I would enjoy being able to take my kids horse camping down at white tail as I did growing.
