Comments: I agree with what they are wanting to do. It definitely needs improvement. It does get yucky. The idea of it being so available with the level of dirt is just great. I don't know if they need to revamp it so much if they are adding dirt to it, but I'm not an engineer. If it gets too good, they may have to put speed bumps on the road if it gets to crazy. For an ATV it was fine, but it was difficult for regular vehicles. I completely agree with this decision. I am all in favor with it.
