Comments: Mr. Rosendale - You don't need to understand science to understand why it's important to preserve a wildlife sanctuary in the Last Best Place. The Bible tells us why God instructed Noah to build the ark:

Now the earth was corrupt in God's sight, and the earth was filled with violence. And God saw the earth, and behold, it was corrupt, for all flesh had corrupted their way on the earth. And God said to Noah, "I have determined to make an end of all flesh, for the earth is filled with violence through them. Behold, I will destroy them with the earth." (Genesis 6: 11-13)
