Comments: The proposed uses match with a big trend towards the "new" sports such as mountain biking and ski touring. Making available more areas will tend to limit the appearance of illicit trails and at the same time protect sensible area as well.

I'm in favor of the project and I push my luck to ask that a mountain biking trails be planned to link the Gorham Area to Pinkam Notch then south toward Jackson. Avalanche brook might be a good option. In other state, longer mountain bike ride are available and in time become a attraction. Single track could be a match for a future trails going south to Jackson.

Please keep on the excellent work you are doing in protecting the Whites Mountains.

Regards.
