Comments: I object to improving the road to whitetail campground. I have taken family and friends to that campground many times and have enjoyed a peaceful camping experience. It's not that hard to get to the campground. With the road improvements travel trailers would be able to easily camp at this NON-electric campground. I have had poor experiences with people running generators at non-electric sites and I would hate to see that happen at whitetail camp.

I understand crowding is an issue at the main campground but I think funds would be better spent adding sites there.
