First name: Darrel R.

Last name: Martin

Organization:

Title: Mr.

Comments: I support protections for old growth forests. I'm neutral on the practice of carbon credits as a way of doing so, but I applaud the reasons behind doing so. America the beautiful needs to stay beautiful. We are the New world; humanities' last refuge for expansive conservation and wildness, of which old growth primeval forests play an incalculable role.

Please do whatever it takes to preserve them, for the generations of today as well as tomorrow.
