Comments: I support the Wenatchee Mountain Alpine Huts system being proposed in the Teanaways. This project would not only expand accessibility for backcountry skiers and snowboards for enthusiasts across the PNW, but it could reduce backcountry traffic and impact in existing areas. The proposed Hut system would be a great addition for more local groups across the entire state of Washington.

There are multiple areas across the cascade range where backcountry skiers, snowboarders, and snowmobilers recreate and the Teanaway area should be no different.

Again, I strongly support this proposed hut system and am excited to see it come to life.
