Comments: I oppose the closure of some of the roads in this project. There is minimal traffic on these roads, but they are used by many of the locals in the area for firewood gathering, checking cattle, and other hunting activities outside of the green dot road closure. What is the purpose of closing them? The roads I am referencing are the 4260-300, 4260-700, 4260-750, 4260-300, and the 4260-200. I have previously spoken to one of the individuals that was intimate with this project and his reasoning was to limit access during hunting season but all of these are already closed during biggame hunting seasons except the 4260-300 and 4260-200. All of the roads listed will limit access to land that I personally recreate on and will be unable to continue to utilize this area if they are closed.
