Comments: I am a life long resident of Bonner County and have been enjoying OSVs for more than 20 years on the IPNF. I wholeheartedly object to the ruling of a 1 April closure of OSV use on the IPNF. So long as winter conditions, ie, snowpack is above the minimum usage OSV use should remain open as resource damage would not be occurring. The 1 April closure is unreasonable as this removes 4 to 6 weeks of the recreation season, especially at high elevations. In addition, I support the removal of woodland caribou habitat from consideration as the last woodland caribou was captured and moved to Canada in 2019, effectively making the United States population sadly extinct.

Thank you,

Eric Kedish
