Title:

Comments: Please notice these forests here in North America greatly predate the founding of this nation. You would not push our planet into a crisis that could puff off our breathable atmosphere for short term commerce considerations would you?

We need oxygen to sustain our lives. A breath of air without oxygen content will not sustain DNA life forms.

Vote to increase areas of old growth forest that must not be cut . Keep it simple- keep the trees intact in forest. Plant new trees for harvest in fields presently full of weeds..
