First name: John

Last name: Williams

Organization: Anyone who rides snow

Title: Local who's lived here his whole life

Comments: I don't think that riding anytime after such dates will hurt anything. We are not going to kill are bikes sleds riding over trees saplings or anything of the sort we are not out there to kill are rides or wildlife. As for habitat that is in hibernation we are not hurting there life cycle at the time of riding it's not like we are gunning for animals for gods sakes. Shit you all are allowing everyone in America to move hear at once and we as people got to take it. Just my two bit's.
