First name: Phillip

Last name: Norman

Organization:

Title:

Comments: Trees and all of nature in the Commons and in preservation of all life on Earth, belong to all creatures. I may not kill an important tree on my land. No one regardless of land title, may recklessly harm those who share our water, air and other Commons sustenance.

We must learn now to live with greatly reduced consumption of fragile resources, then building things with improved durability. More stone. Less wood.
