Comments: As a boundary county resident late spring snowmobiling is the most used time to participate in the sport as road closers and spring breakups limit work and leave a considerable amount of free time to go out and enjoy the amazing mountains so close to home. If the regions here are closed it would force me to travel further which would take enthusiasm and joy of exploring our very own amazing terrain. It's always been amazing to be only minutes from great riding without hassle or fatigue from traveling.
