First name: Ronald

Last name: Shultz

Organization:

Title: Mr

Comments: Dear, sirs, myself and a group of flyfishing friends for the last 30 years have been hiking into our BLM, and National Forest land. As the years go by the encroachment and damage to our public land by ATV's grows. We see it first hand and it's sickening. It's time to stop this now so future generations have the opportunity to do what we have done.
