Title:

Comments: I do not have a strong background to offer specific advice, but as an Alaskan, I am watching our glaciers shrink at a dismaying pace and have watched horrific past destruction of our old growth forests. I do understand the science behind our need to "Conserve America's mature and old growth forests on federal lands." as specified in Executive Order 14072. I strongly support this order, and ask the Forest Service to comply with this order in every way possible. Time is running out to slow destructive climate change, and keeping our forests intact is a huge positive step.
