Comments:

More information on the connections Granite Backcountry Alliance has with associated businesses is needed before GBA is allowed to cut more glades on public lands. There is a wide variety of conflict of interests among Tyler Ray's thinly veiled non profit / business. No up to date tax info is available for GBA or associated businesses. These businesses are. Granite Backcountry Alliance, Back yard concepts, Front yard law, Ski Kind, Mt Washington backcountry ski festival and possibly more. Money is not directly made through fee's, however large amounts of money is being made by Mr. Ray off of public lands. Thank you for considering this and looking into these conflict of interests.
