Comments: Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I MUST DEMAND that the Forest Service and BLM:

Adopts a rule that ensures that old-growth and mature forest protections will endure through time!!?

Protects old and mature trees from logging PERMANENTLY!!!

Starts NOW to halt ANY AND ALL old-growth logging projects that are in development or have already started!!!

Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises. We can NO longer allow for ANY AND ALL continued deforestation and excessive logging practices that would cause damage to our world!!!

Sincerely,
Jeffrey DeCristofaro
Asheville, NC
