Comments: I am objecting to the planned treatment of Mountain Big Sagebrush, *Artemesia Tridentata* and [I am objecting to the planned treatment of] *Duncecap Larkspur*, *Delphinium occidentale*. These plants are native and occur in our native Sagebrush Steppe ecosystem. When the native ecosystem is disturbed, it makes an opportunity for non-native weeds such as Cheat grass, *Bromus tectorum* to come in. I object to your Desired Condition. A native ecosystem is my desired condition not livestock pasture.

Thank you,

Jennifer Williams
