Comments: I recently visited Halsey Nat'l Forrest and camped at the Natick campground. We Love riding our horses at the Forrest and try to utilize it as often as we can allow. However we are limited to the Natick campground due to the impassible road into Whitetail campground. Fixing the Whitetail road to make it passible for our horse trailers would allow us to ride and utilize more of the Forrest. We Have chose to stay out of the Whitetail campground in the past due to the road situation. Please consider this roads repair.
