Comments: There are very few places left to camp WITHOUT the noise of generators and this was one of them. It is beautiful, serene and quiet. If you make this accessible to camper trailers and RVs, it will no longer be enjoyable for those who like to have a little seclusion and peace in their camping experience. Sometimes you just want to get away from all of that and just enjoy nature. My suggestion would be to improve the main Halsey campground. Add space or improve that area for those who have camper trailers and leave whitetail campground how it is. This place is my family's favorite place to camp in the whole state! Please please keep this one amazing area for those who truly want to experience Nebraska!
