Comments: While I agree with the fact that the Holland Lake lodge needs some upgrades, I do not agree with the addition of more buildings and a restaurant. As a Seeley Lake/ Condon resident, we like to keep things small and local, and an additional restaurant would take away from the restaurants that we already have close by. When people come to experience Holland Lake, they should be coming in with the idea that it is an outdoor, small town experience. Measures to increase fire safety are great, but adding more buildings will take away from the natural beauty of Holland, and take away from the reputation it has come to uphold.
