Title:

Comments: I have been born and raised here in NW Montana. My family has been in NW Montana since 1923. Projects like this will lead to the demise of our way of life. We are not the playground for rich people. Property prices and the cost of living is skyrocketing because of all the attention and expansion. Keep the lodge the lodge. It's a beautiful lake and this will simply ruin it. This all happened to Colorado in the 70's and 80's. This is a horrible idea.
