Comments: I believe Holland Lake Lodge expansion is a complete and utter mistake and should not be pursued. The Swan Valley is one of the few quiet places left in a popular growing state and with more growth in population to valleys like this, wildlife will not thrive and carbon footprint from humans will permanently damage such beautiful lands. I have direct family from that valley and spent a lot of my youth on places like Holland Lake, Condon, Rumble lakes etc. And would hate to see it destroyed for profit and "expansion".
