First name: Nancy

Last name: Hager

Organization:

Title:

Comments: This is a HORRIBLE idea. We can't choose profit over intelligence. This would be the demise of the Swan Valley and it's ecosystem. The impact would devastate the pristine quality of the valley and it's wildlife. Please don't ruin the quality of life of everyone and everything. The impact of thousands of people on the Hiway, the forest service roads would be devastating and destructive. The litter left behind will destroy the beauty and endanger the wildlife. Who will monitor this? Who will be responsible for the problems that come with an operation of this magnitude? This plan needs to be stopped. Nancy Hager
