Title:

Comments: To whom it may concern,

PLEASE do not allow expansion at this time. There are too many Infrastructure concerns that need to be addressed. This area was never destined to be a sprawling metro area. We can barely Support the current seasonal influx. Even if we could, I don't think many that live here year round would want it. The simplistic nature of our home is what makes it ours. If you want a world class destination go to Disneyland.

Do NOT allow the glacier park surrounding area become a nightmare that ruins the solitude.

Thank You
