Title:

Comments: Holland lake should not be used as a resort, resources are not close as far as ems police etc. The rocky mtn elk foundation also has land out that way. Protect our forests and our wildlife, a resort is not necessary. Montana is NOT one big amusement park, we need to stop treating it that way for financial greed. This state WAS labeled the last great place, over the course of the past 2 years alone montana has expanded astronomically at an unfortunate cost to those who made this place great in the first place. Keep major resorts OUT OF THIS STATE!
