Comments: Holland Lake is a place very near and dear to me. I grew up just across highway 83 from the Holland Lake Road. Sadly, my family's homestead had to be sold - we were land rich and money poor. The old Underwood Ranch became "Holland Peak Ranch" yet another destination resort. My grandparents's ashes were scattered there. This was devastating to my family . The one thing that I held on to during this time, was that Holland Lake and the beauty surrounding it would always be open to the public and I could go there to pay my respects and become grounded. My Grandparents, Ed and June lived in the lodge one years while grandfather worked as a finish carpenter.

Hasn't Montana sacrificed enough of its beauty to "destination vacations" Will there be anything left for my children's children to go to? Please don't sell out Holland Lake as well.

Sarah Cooper
