Comments: I don't want This project to start . Number one we has Montanans don't need out of state people coming into Montana and ruining it for the people who live in Montana . When I was little I always went to Holland lake camped , canoe and have family time there and if you build it has a resort it won't be the same keep it has the same Montana people love Holland lake has it is please don't change it . It's the memories that makes that lake and changing it will not be the same .
