Comments: Please do not let the Holland Lake area be turned into a resort. We native Montanans have watched our beautiful state be overtaken by out of state people and companies at record rates the last 2 years and counting.

Please help us prevent more of our state from being taken over. We're rapidly running out of areas to recreate that haven't been commercialized, turned into a resort, and become so busy the locals can't even enjoy where our families have been for generations.
