Title:

Comments: I am 100% against this. I grew up in Bigfork and am raising my family here. There has been an incredible amount of change in this valley in the couple of years. Please, let this be something that remains unchanged. We all need this. I'm sick of seeing farm fields make way for cookie cutter homes stacked on top of each other. I'm sick of seeing a new storage unit facility thrown up every time I drive to town. The Swan is the one place I can count on right now to take my family to get away from it all. A place my soul can relax. A place I can take my kids and show them something that is still the same as when I was a kid. We need to start saying no to all the outsiders coming in and disgracing our sacred places. This makes me physically sick. Please, just no.
