Comments: Please do not change the lodge. This area is a wonderful retreat and sanctuary. Holland Lodge is so special the way it is. Holland lake is so special because it is not a built up area. One can go there and actually enjoy the beauty of the lake. So many other lakes in this area are built up with lots of housing. It's ridiculous to even consider this. This needs to stay as wildlife habitat. The amount of trees that are proposed to cut down is preposterous. Creating a resort will just make space for the wealthy to fly in and enjoy but cut locals out.
