Comments: NO! Stop this insanity and irresponsible rape of pristine land and resources! This land is not intended for scraping and scarring. How much more of this plunder can the area take and still maintain its integrity and proper function?!? Hordes of people, cars, sewage, garbage, noise...Loss of forestry, pristine wilderness, animal infringement, water pollution..... This insanity has to STOP! Of all entities, the Forest Service should be a better steward of our lands and not sell out to corporations in the name of the almighty dollar! Shame on you for even considering this breach of trust with the people of this land! Be more responsible and have some integrity in the decisions you make! Our Montana is being raped and plundered to line the pockets of the rich while the locals bear the burdens and pay the price of ruin of their state. DON'T CALIFORNAIZE MONTANA!!! NO MORE RAPE AND PILLAGE OF THIS PRISTINE LAND! HAVE SOME RESPECT AND REGARD FOR THE PURITY AND BEAUTY OF THIS VIRGIN WILDERNESS!
