Comments: As a generational Montanan I request you consider the impact allowing a corporation to change the area under the guise of updating. It is one of the most pristine areas of Montana that has not been commercialized. As the general public we can camp there and still feel the true historic wilderness of Montana. I know Montana has been discovered but part of the calling is areas like this. Areas close to town but far from being the city. The proposed changes certainly restructure the area, updating the Lodge. But is it with intent to restore what was or to create a place to "sell Montana"?

Thank you for your consideration.
