Comments: I am writing to oppose the expansion of Holland Lake Lodge. For many years, there has been a delicate balance between public land use and private ownership at Holland Lake. There are not many places left where a Montana family can camp, kayak, hike, and hear the calls of loons. Expansion of the lodge may drive out species of birds as well as Montana families, especially as the lodge is financially out of reach for most of us. Please keep Montana's public lands accessible to Montana families and cite no in the proposed expansion of Holland Lake Lodge
