Comments: To whom it may concern:

Seriously? Another out- of- state company attempting to destroy everything that makes Montana beautiful and unique. This state does not need another stupid resort that only rich out of state visitors can afford, while the rest of us BORN AND RAISED Montanans struggle to get by everyday with our 2+ jobs. Our wildlife do not need their homes ripped away from them AGAIN AND AGAIN because of absurd development projects like this one. Is it so hard to leave Montana wild? Why does being outside require a damn resort? This is not California. People who ACTUALLY get outside come to and love Montana BECAUSE of how wild and free it is- NOT for the Uber fancy, expensive, and posh resorts. This project idea is simply ridiculous, and trust me, as a born and raised Montanan, this project will be INCREDIBLY harmful to not only our nature and wildlife, but it will be another precious treasure taken away from the locals. DO. NOT. PISS. OFF. THE. LOCALS. Stop taking away the things we love and care for so you can make another dollar. Take your "hip" and "trendy" project elsewhere. We Montanans do not want any of that in our state, nor do we need it. Stop gentrifying our state. Kindly, go back to your state and development your project there.

Sincerely,

a very angry Montanan.
