Comments: This is an absolutely horrible and insane proposal. Do we really need to destroy the little piece of pristine area that is left by building a monstrous resort ? Building it at that location without any infrastructure to support it will not only destroy the Holland Lake area but also surrounding communities.

Montana is being bought out by big corporations who are only interested in making money and if you permit this insane proposal to go through you are destroying an irreplaceable part of what makes Montana so special! I have seen a company come in and take over Seeley Lake and ruining the peaceful life that we came here to enjoy.

There is nothing the forest service could have done about that...but now to allow another greedy corporation to destroy Holland Lake would be simply foolish. Please don't allow this to happen!
