Comments: I paddleboard on Holland Lake frequently. I object to the number of trees they want to remove for this project. I can not imagine the amount of pollution that this deforestation and construction will bring to the lake. The dirt road will not be able to handle the increased traffic, and a paved road is would alter this area in a negative way. We have so few places left like this in Montana. Do we want to lose a quiet, peaceful spot for locals to recreate? Do we need yet another playground for the super rich in Montana?
