Title:

Comments: Please do not even consider this project. Many locals (and animals) enjoy the serenity and beauty of Holland Lake. It is truly a treasure. My family has had a cabin here since the 1960's. An increased influx of non-locals impinging on this land, while irreversibly changing it for a profit, would destroy the very nature of what makes Holland Lake remarkable.

Why destroy something so serene when it is totally avoidable to do so? Holland Lake really is one of The Last Best places. Please do not turn it over to those who aim to make the lake exclusive. How tragic that would be.
