Comments: To Whom it may concern,

Please keep Holland Lake for Montanans. My daughter is a 5th generation Montanan and we love exploring our homestate lakes and parks. Unfortunately it has become harder and harder for us to compete with out of state money and demand. Holland lake and the entire Condon area is one of the only areas that isn't over crowded by tourists and out of staters. Please keep something for my daughter and her children so they can feel the pride and magic of their home state lakes . After Seeley lake area had a similar project all the prices sky rocketed in that area.

We pay our taxes and our respects to these areas to keep them clean and there for future generations. Turning this area into a congested resort area with people who don't hold the same pride in our state as we do would be a giant mistake. It would not bring in more money or prosperity for anyone but the corporation that pays its taxes in a different state. Think about Montanans future
