Comments: We believe no one will want a big resort at Holland Lake. Reasonable improvements or updates to existing buildings are understandable and necessary at times. We feel that the size of the lake would not accommodate a large resort. It would over run the lake causing harm to the wildlife and water quality. A large resort could potentially create an environment that is an exact opposite of what people enjoy and appreciate about Holland Lake: tranquility, peace, and the grand beauty of nature. No more Loons, no more quiet mornings on the smooth clean water.
