Comments: Please do not do this!! How would this benefit any Montanans? Only the elite of the coin will come here and it will ruin the special, natural place that Holland is!! Why would the forest service think this is a good idea? So sad and so terrible! We already have Paws Up and the Yellowstone Club bringing all the out of state wealthy people and excluding the public! Think also how it will affect the animals who live there! Shame on you for even considering this!!! Your job is to protect nature and special places as so few are left!! Thank you for not allowing this expansion!!
