Comments: I am commenting on this proposal as a user of the Holland Lake campgrounds and hiking trails. This site is one of the premier wild sites available for families and others to enjoy being immersed in nature. We are not in need of more large scale, expensive resorts. We are in need of immersion in nature. I do not think such a large scale proposal serves those of us from Montana or elsewhere. I especially disagree with cutting down so many trees!

Respectfully,

Becky Bishop
