First name: Amber

Last name: Gehr

Organization:

Title:

Comments: Please keep our public lands public. Don't let another person who isn't from here say this will be good for Montana only to use up our resources, ruin our environment and create a place only the wealthy can afford to visit. We are a state of inclusion, happy to share our way of life with others. However, if we continue to allow large cooperations to buy up large areas of our lands, strip them of the forests we covet so dearly or hoard those lands for a select few then we lose what makes us so special. Please help keep Montana the wild, free and majestic place it is by voting against the Holland Lake Lodge expansion.
