Comments: I grew up in Condon and Holland Lake was always the hangout spot it was popular and beautiful. I can't imagine how adding yet another Resort in our state is going to add to the beauty. My grandparents are scattered near there and that's where I like to go to pay my respect. There is no other place like this in the world please don't develop it not only do I not want to lose access to it I want to keep this around for my children's grandchildren.
