Comments: As a friend of Holland Lake Lodge I'm all for improvements be made for the health and safety of guests. However I would want the lodge to be in character of the surroundings and not turn into a high end resort for only the wealthy such as Paws Up down the road. Holland Lake Lodge always provided a unique experience while staying true to Montana's roots. It was affordable to many while providing an almost first class dining experience. Please don't turn it into something unaffordable for hard working Montana families.
