First name: Bobi

Last name: Young

Organization:

Title:

Comments: Please Keep Montana Wild. An expansion will mean more tourists taking away from the locals being able to enjoy this area pollution free. I understand maintenance issues are needed for current structures but to expand and profit means brining more people in and it will never be enough. Sometimes saying no is saying yes to the environment and wildlife us locals like to see. With limited people. If the structures cannot sustain themselves with what is already given then they need to just be let go. Please, keep Montana wild.
